

## THE MORNING

~The symbolism of the morning  
The monotone of the spirit  
The nonconformity of my speech  
Creating worlds within worlds  
The heavy laden tramples its self to  
Reach its destination  
While life protrudes inward  
Offering numerous breaths of superlative mutation  
Relinquishing reasonable answers to  
The allegorical foundation of the existing ways ~

## THE WALLS OF SCHOLARS

~Scaling the walls of scholars  
Knowing the weariness of self conformity  
The ligament of wisdom to the bone  
The nurturing flesh  
The numerous points of self  
Nuriment of fellowship  
The nucleus of one word  
Transferring its essence to the void ~

## THE VOID

~ Embracing the void  
Seeking the measure of itself  
Proceeding through vacant stares  
That create old lore  
Encumbering the narrative  
While alternating energy with repose  
The brittle life held in that text  
Forever in its own chapter  
Chronic collector of wisdom  
Suppressing the color of the day~

## THE EVENING WALK

~ That famished reasoning  
The somber theory  
The delicate demeanor of intertwined logic  
Imperceptible world  
Commanding impending attention  
While he goes for his evening walk~

## REVIVAL OF FLESH

~Throughout the numerous days  
Counting the spirits that took hold of themselves  
Their familiar motion  
Accounted for nothing new  
Answering the quietness  
With undisturbed tranquility  
The pursuit of knowledge  
Quality of knowing  
The revival of flesh in an instant ~

## TREES OF THE EVENING

~Trees of the evening  
Words that flow forward  
And into the mortal earth  
The morning the flowers rose  
To beginnings that happened yesterday  
Longevity of vision after the blindness  
Inseparable trees to eternal light  
Seeking the gravitational pull from grief  
Becoming one's self through instruction  
That was never received ~

## IN AS MANY DAYS

~ In as many days the flesh grew over  
The morning created the idea to isolate the self  
The tree bled inconsolably as we climbed  
The inherent music drowned itself  
While authorizing a new beginning  
The chaotic fertility rose  
Higher to suppress itself~

## STANDING TREES

~ As tall as the tree stood that day  
The vulnerability of that spirit rose with discern  
The somber disproportional of life rival non other  
Limbs of existence amputated themselves  
But the outbreaks of thought, never expanded  
The way they did that day  
The equilibrium inherited greater balance of self  
And the mutation of a man began~

## ISOALTION

~ Isolation of the spirit  
Solitude of the wind  
The summary of the flesh  
That radiant folklore, within  
The habitual design of extensive being  
Collapsing the manifestation  
The fall of the living manor  
Suppressing the intricate flow  
Of substantial recollection  
All return to the compulsion of life ~

## THE PASSING

~ That punctual death  
That reaped the hidden  
Categorizing the last breath to be taken  
Impending travel that started with  
An ethereal kiss  
Parting ways with imbedded energy  
While discussing the movement of time  
Dispensing sentiment  
Dismissing untold burden ~

## THE DESOLATE PARADE

~Partaking in the traditional

The desolate parade

Patience of a few

That passive motion of the peculiar

Engraving the spirit with the thorn of the days

A remark about the stillness of optimism

The onlookers

Invading the obedience

While divulging their impressions

About the desolate parade ~

## DECIPHERING STILLNESS

~Deciphering the stillness

Of the farther ways

The enchanted child dispassionate about his own

The maturity of the blood

Rare breath substituting for the rations

Of the mind

The support of the relevant wounds

Hindrance of youth passing internally

The bindings of time ~

## ENDOWMENT

~ Lifting the reality of the idea

Discovering unvaried disposition

A man who is just existing

Releasing the hidden of the little known

Within the embedded portion of time

Seeing nothing but the blindness

Everything but the self

The façade of that spirit

Led to the manifestation of a center

In a way of receiving

The true nature of that nucleus

The wealth of weakness become

The entire foundation of his facilities

The great endowment ~
