

# THE POETRY

## ETERNAL MIND

~ My love for the eternal mind

Still symbolism

Still in time

My discourse

My discussion

My manifestation of growth

Awaking wisdom

From slumbering dormancy~

## LIMBERING NONENTITY

~ Limbering nonentity

Impervious waters

Misanthropic moons

Seed of allegorical perfection

Reminiscent of our divine nature

Senses and spirit

Unfolding the mind~

## ENCOMBERING SUSTENANCE

~Encombering sustenance

Protruding knowledge

Recycling the mysteries and

Time of far away deer

Harnessing consciousness

Simultaneously we love~

## DIALOGUE

~The balance of dialogue

Nurturing essence

Emancipation force, born to reconstruct

The face of my mind

Fragmentation that leads to wholeness

Pondering the duplications

Language that leads to mine~
